

My experience with writing Brno Ph.D. Talent application

Tereza Vaněčková

Department of Chemistry and Biochemistry, Mendel University in Brno

Brno Ph.D. Talent 2016 scholarship holder

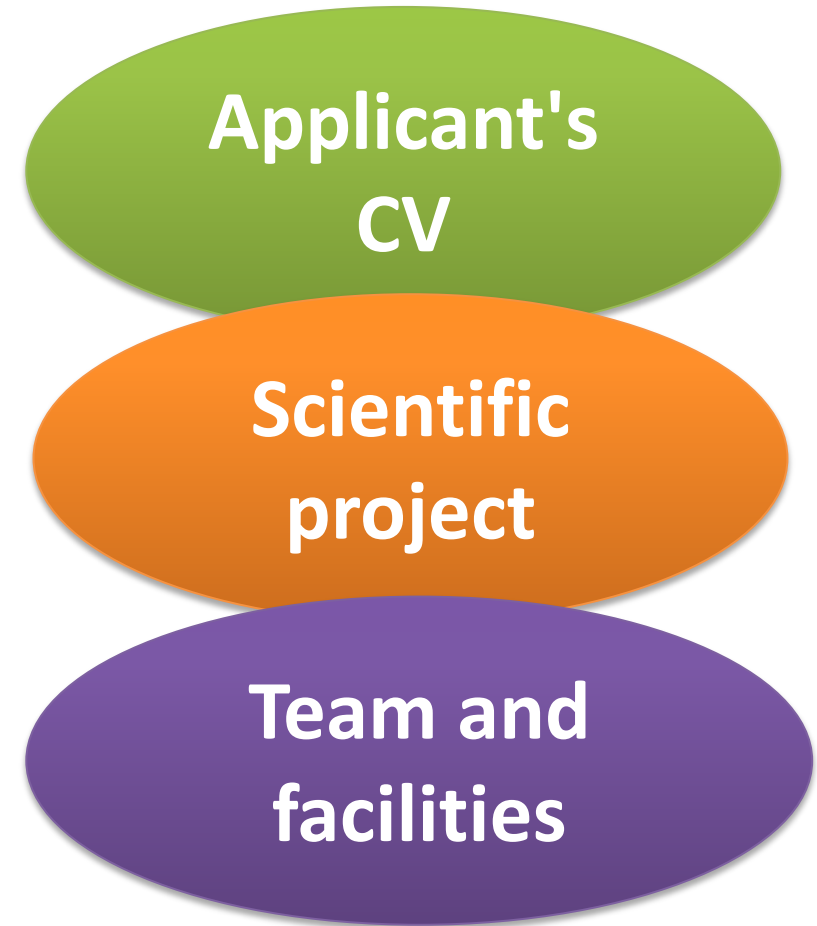

Seminar for applicants

29.8.2017

Application form

Source: <http://www.jcmm.cz>

Follow the structure
Permitted length!

→ Academic CV

- **Education**
 - field of study
 - subjects related to the project
 - graduation with honor, Dean's Award?
 - other achievements
- **Publications**
 - Student conferences
 - Autor/co-author
- **Summer schools**
- **Study/Research internship** – CZ/abroad
 - What field, subjects, mentors

- **Add value** to yourself
- „Soft skills“ essential for you as a scientist
- Languages
- Think of your **experience** that makes you a bit different from other applicants (volunteering, participation in student organizations, professional courses etc.)

It's good to be different

How to write your scientific project?

- Original idea
- Interesting to the research community
- Your enthusiasm and motivation

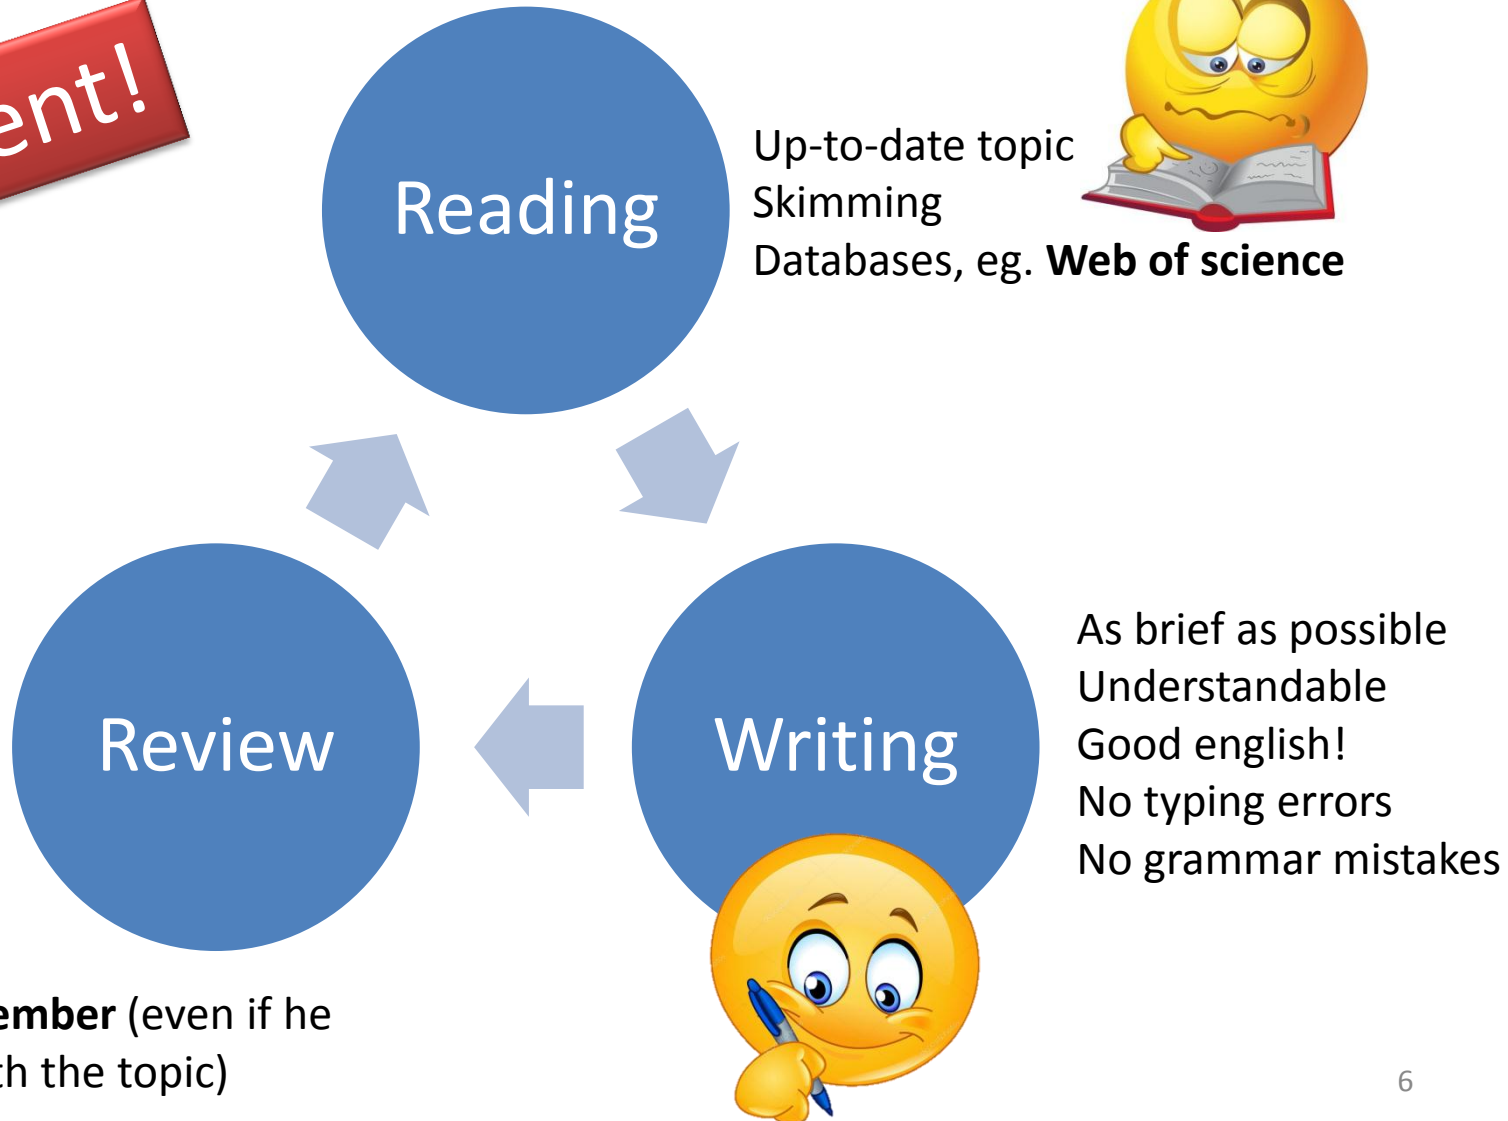

„Your application must give clear answers to the following questions:

- What **problem** is addressed in the project?
- Why are you **interested** in this topic and what is **your role** in the project?
- How do you **plan** to solve the problem?
- What are the expected **results** of the project?“
